CDI IT Solutions Moves to New Office in Charlotte, North Carolina

Philadelphia (July 25, 2011) – CDI IT Solutions (CDI), a technology services delivery leader and a division of CDI Corp., today announced it has expanded its operations and moved to a new office in Charlotte, North Carolina.

The new CDI office, which is located at Two Wells Fargo Center, will provide full service IT staffing, managed staffing, direct hire and project-based solutions.

“CDI has seen an increase in business recently in the financial services, manufacturing, high tech and public services sectors, creating the need to open a new office in the Charlotte area,” said Dirk Dent, Executive Vice President of CDI IT Solutions. “We are beginning to see an increased demand for IT staffing resources as companies gear up from a low-risk approach to completing critical projects during a challenging economic environment to requiring more personnel as business improves.”

“Along with the need for additional contract staff, we are also seeing a higher demand for project-based work and permanent placement positions and expect to utilize this office to fulfill these requirements as well,” added Dent. “This office relocation and expansion further solidifies CDI’s commitment to our clients and prospects in the greater Charlotte region.”
